

DENISHA GARNER

Software Engineer

Atlanta, GA | (404)-748-3887

thegarnercode@gmail.com | [linkedin.com/in/thegarnercode](https://www.linkedin.com/in/thegarnercode) | github.com/thegarnercode | [Portfolio](#)

Creative software engineer with the ability to develop scalable, clean, and well-written code. High intellectual capacity to learn, retain and apply new concepts of varying complexity. Prior to being a software engineer, I worked as a lead orthodontics assistant in which I encouraged a collaborative team environment while delivering client needs in a professional and timely manner.

Software Development Skills

- JavaScript, HTML, CSS, React, Node.js, MongoDB, Debugging, Express, Redux, RESTful API, PostgreSQL, Bootstrap, Flexbox

Education

Digital Crafts | Certificate in Software Engineering | Atlanta, GA

Nov 2020 – June 2021

- Software engineering training program covering full-stack development including, but not limited to JavaScript, HTML and CSS, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

Amazon React Clone | <https://amazon1-react.pages.dev>

- Lead development for an e-commerce site that allows users to buy must-have software engineer products to successfully prepare for Software Engineering school.
- User experience allows for viewing products, short descriptions, product ratings and product price. This application allows creation of an account, adding and removal of items.
- Built with React js, Firebase and Stripe

Snake Game | <https://thegarnercode.github.io/JS-SNAKE/>

- E-commerce application created for users who enjoy gaming and strategic pastimes.
- User experience allows for players to control the arrow keys on their device to move a "snake" around the board. The objective is to direct your snake to eat the pellets and grow without running into yourself.
- Built with JavaScript and CSS

Movie App | <https://gifted-euler-3d30ff.netlify.app/index.html>

- Member of a 3-person development team building an e-commerce site that allows users to search their favorite movie titles by top-ratings, trending, genre, and popularity.
- Responsibilities included designing and assembling
- Built with JavaScript, CSS, HTML, Bootstrap, Fetch and Axios methods for API data request

Professional Work Experience

Brooklyn Family Orthodontics

Lead Orthodontic Assistant | 2018-2020

- Top performer of Invisalign 3-D scanning and bracket bonding

- Assist the orthodontist in the clinical treatment of patients to include greeting, seating, dismissing patients, and providing patients with information regarding procedure
- Trained new orthodontic assistants in monitoring, sterilizing, chairside procedures, and patient documentation

D4C Family Orthodontics

Orthodontic Assistant | 2014-2018

- Protect Patient Sensitive Information
- Assisted chairside during orthodontic procedures
- Always upheld a positive rapport with team members and patients
